Profile

Full Stack Web Developer specialized in React and Next.js, experienced in real and academic projects using TypeScript, Node.js, MongoDB, and PostgreSQL. Proactive, adaptable, and results-oriented, passionate about learning new technologies and delivering high-quality, functional web solutions..

Technologies

- Frontend: React, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, TailwindCSS, Figma
- Backend: Node.js, Express, REST APIs
- Databases: PostgreSQL, MongoDB
- Tools & Others: Git

Projects & Experience

LeanMarket (2025, ongoing) – Personal e-commerce project (Next.js, TypeScript, PostgreSQL)

- Built responsive, scalable UI with reusable components in Next.js and TailwindCSS.
- Implemented product filtering and featured products API endpoints using Prisma ORM.
- Integrated authentication flow with NextAuth and PostgreSQL.

Timbring (Jul – Nov 2023) – E-commerce delivery optimization platform

- Coded homepage and registration form with form validation.
- Migrated authentication from Auth0 to NextAuth, reducing external dependencies.
- Implemented password recovery flow improving onboarding and user experience.

Website: timbring.com

Gamepedia (2023) – Video game CRUD platform (React, Node.js, MongoDB)

- Built features for game search, detailed views, and creation.
- Integrated MongoDB backend with REST API for persistence.
- Deployed a fully functional CRUD application using Vercel.

Deploy: gamepedia-gaming.vercel.app

Soft Skills

Problem-solving · Effective communication · Team collaboration · Continuous learning · Adaptability to new technologies · Time management in remote environments

Education

Self-taught learning (2023–Present) – Online courses and official documentation. Continuous learning in React, Next.js, Node.js, PostgreSQL, and modern technologies.

Full Stack Web Developer – Henry Bootcamp (2022–2023)

PC Repair Technician – Instituto Tecnológico Laboral, Mendoza (2015) – Work experience in maintenance and computer repair.

Electrical Technician with Electronics Orientation – Escuela Técnica N°4-111 Ing. Pablo Nogués, Mendoza (Graduated 2012) – Work experience in installations and electrical maintenance.

Languages

Spanish: Native | English: Advanced (reading, writing, speaking)
